

Technology Internship Opportunity at OnstageAI

Join OnstageAI for an unparalleled internship experience designed for students from the Central European University. We're seeking an innovative and tech-savvy individual to assist in testing our pioneering OnstageAI technology.

Find out more about OnstageAI [here](#).

What You Will Do:

- Play a critical role in testing our OnstageAI technology, providing valuable feedback to enhance its development.
- Work closely with our technology team to identify and troubleshoot potential issues.
- Contribute ideas for new features and improvements based on your testing experience.
- Supervise the AI tracking sound-technology processes.
- Engage actively in discussions to improve the overall end-user experience and technology performance.

What We Are Looking For:

- Current enrollment at Central European University, with a strong interest in music technology, and fluent in English (German and other languages are considered an advantage).
- A keen eye for detail and a methodical approach to problem-solving.
- An enthusiasm for technology and innovation, particularly within the music industry.
- Excellent communication skills and the ability to work well in a team.
- A person with a classical music education, bringing a deep understanding of the genre to our technology testing and development process.

Benefits:

- A unique opportunity to work on cutting-edge technology in the music industry.
- Valuable hands-on experience in a dynamic startup environment.
- Exposure to the ins and outs of developing and refining tech products.
- Chance to complete the internship under the Erasmus+ program.
- Receive a monthly allowance of \$350 USD throughout the duration of the internship.

How to Apply:

If you're excited about the possibility of shaping the future of music technology, we'd love to hear from you. Please submit your resume and a brief cover letter to ms@onstageai.com by 30 April 2024.

We look forward to hearing from you!

OnstageAI
